There are Summer and Extended options available. Contact Leah Strain, Student Services Coordinator. [ifs@indiana.edu](mailto:ifs@indiana.edu)

## **IU Bloomington**

### **Assistance and Incentives**

- ***The Covenant***

This program continues in 2009/2010 for Twenty-first Century Scholars. After the family covers the Expected Family Contribution, IU Bloomington promises to provide sufficient grant aid to meet up to the full cost of attendance, giving bachelor degree students the opportunity to graduate debt-free in four years.

- **Residential Programs and Services**

- Twenty-first Century Scholars Servant Leadership Initiative**

- Provides a \$500 per semester room charge waiver to sophomore, junior and senior Scholars in exchange for participation in community service projects with the Bloomington community. Scholar must live in campus housing and maintain at least a 2.5 GPA.

- ***One-on-One Tutoring for Scholars – Introductory mathematics and science courses***

- This service is offered at no cost to all Scholars.

- **Computers**

- Limited number of refurbished computers on a first come, first-served basis for \$10.60.

- **Mentoring**

- Access to services provided by the Office of Mentoring Services and Leadership Development. (formerly FASE)

West Lafayette, IN 47907-1080**

- **Application Fee Waiver**

There is an application fee waiver process at the beginning of the online application which needs to be completed to be considered for the waiver.

- **Early Outreach/summer Bridge Programs**

School-specific Summer Camps – Many of Purdue's academic schools, such as the Schools of Engineering, Science and/or Technology, offer school-specific summer camps for middle and high school-age students and these camps provide partial or total scholarships. Obtain contact information for each school by visiting their specific link on the Purdue University Academic Programs page, at <http://www.purdue.edu/Purdue/academics>

Science Bound Program – mentors 8<sup>th</sup> through 12<sup>th</sup> grade students at Indianapolis Public Schools (IPS), encouraging them to enroll in classes and pursue careers in science, engineering, technology and math/science education. Those IPS students who complete the 5-year Science Bound program and gain acceptance to Purdue University in an approved field, receive a full-tuition scholarship to Purdue for eight semesters. Contact: 765.494.0018 or [wlcampbe@purdue.edu](mailto:wlcampbe@purdue.edu)

Academic Boot Camp for Students in Science, Technology, Engineering, and Mathematics (STEM) – Introduces incoming freshmen to college level work and discipline by providing academic tools to succeed in STEM areas, acclimating students to campus, establishing a network between students and professors. In this five week summer bridge program, students take classes including (but not limited to) math, English, group project, technology courses and labs, time management. They will also have recreational opportunities and a college residential living experience. The application for this camp can be found at [www.tech.purdue.edu/camps/ABC](http://www.tech.purdue.edu/camps/ABC)

College of Science K-12 Outreach – works with students and teachers to increase interest and achievement in science and math at the pre-college level with a focus on teacher support. One program is Math Field Day, which provides middle school students with applications of math, problem-solving and teamwork. Others include Focus on Science, Milton is Missing, Unearthing a Mystery, and Science Olympiad. The departments of physics, biology, chemistry, computer science, earth and atmospheric sciences, and math have other programs. See [www.science.purdue.edu/outreach](http://www.science.purdue.edu/outreach) or call 765.494.1729.

- **Housing Deposit Waiver**

None, \$100 housing fee.

- **Book Scholarship/Stipend**

None

**Purdue University, continued**

## Assistance and Incentives

*Project Lead The Way* – Over 290 Indiana schools are currently involved with Project Lead the Way. The program has developed a four-year sequence of courses for high school students which, when combined with college preparatory mathematics and science courses in high school, introduces students to the scope, rigor and discipline of engineering and engineering technology prior to entering college. The Project Lead The Way curriculum addresses the educational needs of students planning to attend a two-year or four-year college leading to a career in engineering or engineering technology. In addition to the Project Lead The Way high school curriculum, a middle-school program is also provided. The middle school program focuses on design, electronics, automation and engineering mechanics. The curriculum is hands-on and directly articulates to the high school Project Lead The Way course sequence. For more information, visit Indiana's Project Lead The Way website at <http://www.tech.purdue.edu/pltw>

- **College Mentorship and Support Opportunities:**

*Twenty-first Century Scholars Support & Advocacy Program* – This program is designed to assist all Scholars at Purdue University. It provides a contact on campus to answer questions regarding the Twenty-first Century Scholarship, as well as questions about Purdue University. Upperclassmen are also provided leadership opportunities with paid and volunteer student leader positions. They also work in assisting first-year students with mentoring/tutoring.

A major component of the Advocacy and Support Program is the Twenty-first Century Scholars Mentor Program. This aspect of the program is designed to assist first-year students with their transition to college. There are tutors/mentors available to encourage and support the Scholars with academic assistance, social activities, and personal aspects of being a Scholar and a Purdue student. The program is a support network providing information, study tables, and social activities along with leadership and volunteer opportunities that promote well being and high academic attainment. For more information and registration forms, please review our website at [www.purdue.edu/sats](http://www.purdue.edu/sats). The SATS department also organizes the campus-wide support network made up of university faculty and staff. Each Purdue college/school has its own mentoring plan and serves Scholars in their respective areas.

### Assistance and Incentives

- **College Mentorship and Support Opportunities**

Twenty-first Century Scholars Support & Advocacy Program – This program is designed to assist all Scholars at Purdue University. It provides a contact on campus to answer questions regarding the Twenty-first Century Scholarship, as well as questions about Purdue University. Upperclassmen are also provided leadership opportunities with paid and volunteer student leader positions. They also work in assisting first-year students with mentoring/tutoring.

A major component of the Advocacy and Support Program is the Twenty-first Century Scholars Mentor Program. This aspect of the program is designed to assist first-year students with their transition to college. There are tutors/mentors available to encourage and support the Scholars with academic assistance, social activities, and personal aspects of being a Scholar and a Purdue student. The program is a support network providing information, study tables, and social activities along with leadership and volunteer opportunities that promote well being and high academic attainment. For more information and registration forms, please review our website at [www.purdue.edu/sats](http://www.purdue.edu/sats)

The SATS department also organizes the campus-wide support network made up of university faculty and staff. Each Purdue college/school has its own mentoring plan and serves Scholars in their respective areas.

Purdue Promise is an exciting new program that launches in the fall of 2009. It combines strong support services with grant assistance to help eligible Scholars thrive at Purdue. The support services are designed to help students succeed both academically and socially and the grant package – which will include Federal Work Study funding as well as the Twenty-first Century Scholars award – meets full financial need and is renewable for up to four years (total of 8 semesters). Four full time professional staff members and a group of specially trained student leaders will assist eligible students who elect to take part in the Purdue Promise Program. The combination of grant, staff attention, and support services make Purdue Promise one of the strongest Scholar support efforts in Indiana. For more information on the Purdue Promise program, including eligibility requirements and application details, visit the SATS website at [www.purdue.edu/sats/purduepromise](http://www.purdue.edu/sats/purduepromise)

### Assistance and Incentives

- **College Mentorship and Support Opportunities:**

HORIZONS Student Support Program is a federally funded TRIO Program designed to provide academic support for eligible students. This support is provided through various academic and cultural services to over 400 students annually. These services include tutoring, mentoring and counseling. Students are required to enroll in a college study skills course, including a career development lab for which they receive college credit, as well as valuable information on how to succeed in college. To receive assistance, students must be enrolled or accepted for enrollment in a program of study at Purdue University. They must also meet one/or more of the following requirements:

- Neither parent has a 4-year college degree; or
- The family meets the federal guidelines for income eligibility; or
- The student has disabilities

For more information, see the website at [www.purdue.edu/horizons](http://www.purdue.edu/horizons), or contact the office at 765.494.7094.

The Louis Stokes Alliance for Minority Participation (LSAMP) Indiana project, sponsored by the National Science Foundation, strives to increase the number of minority graduates in the Science, Mathematics, Engineering and Technology (SMET). They provide early research and enrichment experiences, sustain teaching and mentoring opportunities on gatekeeper, as well as upper-level courses; provide personalized interactions with graduate students and faculty mentors beginning in the students' first year; and provide professional and personal development opportunities. These early experiences with research and teaching are designed to encourage students to forge and sustain an academic and social identification within their SMET discipline and serve as a solid foundation for student achievement. Visit [LSAMP@purdue.edu](mailto:LSAMP@purdue.edu). Or call 765.496.7967

There are many other outreach and support initiatives in Purdue's colleges. Students are advised to check the website for the school or college they are interested in for complete information.

## **Assistance and Incentives**

### **General Orientation Programs:**

*Boiler Gold Rush (BGR)* – is an orientation program for new, first-year students that occurs the week before classes start in the fall. This valuable orientation experience helps students prepare for a successful first year of college. A limited number of partial and full-fee waivers are available to students who qualify. To find out more about the program and/or inquire about a fee waiver, call 765.494.9328, or visit the BGR website at <http://www.purdue.edu/bgr>

*Learning Communities* – first-year students attend two to three classes with the 20 to 50 students in their community, live on the same floor as the community members (if students choose the residence option), attend out-of-class programs led by the course instructor, and much more. There are 48 Learning Communities and growing! Contact: 765.494.0969, or [learningcommunities@purdue.edu](mailto:learningcommunities@purdue.edu)
